SOLUTION FIT CANVAS

Visualizing the EV Aggregator Strategy

1. CUSTOMER SEGMENT(S) (CS) — CS

- *Current Electric Vehicle (EV) owners in India and globally.*
- *Potential EV buyers researching prices, efficiency, and range.*
- *Commercial EV fleet managers who need to optimize routing.*

2. JOBS-TO-BE-DONE / PROBLEMS (J&P) — J&P

- *Planning long-distance travel without running out of battery.*
- *Finding compatible and available fast-charging stations (e.g., CCS, CHadeMO) nearby.*
- *Comparing different EV brands based on price, top speed, and energy efficiency (Wh/Km).*

3. TRIGGERS (TR) — TR

- *Battery drops below 20% while driving.*
- *Planning a weekend road trip to an unfamiliar destination.*
- *Range anxiety about switching to an EV.*

4. EMOTIONS: BEFORE / AFTER (EM) — EM

- **BEFORE:** *Anxious, frustrated, overwhelmed by fragmented apps, insecure about getting stranded.*
- **AFTER:** *Confident, in control, relaxed, informed about their vehicle's true capabilities.*

5. AVAILABLE SOLUTIONS (AS) — AS

- *Proprietary OEM apps (e.g., Tesla app).*
- *PlugShare (community-driven, sometimes outdated).*
- *Standard GPS like Google Maps.*

6. CUSTOMER CONSTRAINTS (CC) — CC

- *Limited phone storage & multiple network apps.*
- *No unified visual data for all brands.*
- *Confusing tech specs (AC vs. DC connectors).*

7. BEHAVIOUR (BE) — BE

- *Mental range calculations and app juggling.*
- *Downloading multiple charging apps for trips.*
- *Asking forums about station reliability.*

8. CHANNELS OF BEHAVIOUR (CH) — CH

- **ONLINE:** *EV subreddits, YouTube, App Stores.*
- **OFFLINE:** *Dealer reps, EV meetups.*

9. PROBLEM ROOT CAUSE (RC) — RC

- *Fragmented EV charging networks.*
- *No unified vehicle & charging data dashboard.*

10. YOUR SOLUTION (SL)

- *Interactive Tableau Dashboard.*
- *Maps EV efficiency, price, speed.*
- *Shows charging stations by region & connector.*
